# SUMIT GURUNG
## WEB DEVELOPER

## Profile

I am a driven and highly skilled web developer with hands-on experience in building dynamic, responsive, and user-focused websites. Specializing in JavaScript, React, HTML, and CSS, I excel at crafting scalable web applications and following best practices like test-driven development and agile methodologies. I am seeking a web developer role to apply my technical expertise, solve real-world problems, and grow within a talented engineering team.

## Technical Skills

- **Languages & Frameworks:**
  JavaScript (ES6+), React, HTML5, CSS3, Sass, Node.js, REST APIs, Firebase
- **Development Tools & Practices:**
  Git, GitHub, Test-Driven Development (Jest, Enzyme), Agile (Scrum), Pair Programming
- **UI/UX & Design Tools:**
  Adobe Photoshop, Premiere Pro
- **Soft Skills:**
  Effective communication, collaboration, problem-solving, project management, client relations

## Key Achievements

- Raised £25,000 for film production, securing key partnerships with businesses and charities, boosting production capacity by 15%.
- Improved website performance for Shy Productions by 25%, increasing audience engagement by 10% and reducing bounce rates.
- Contributed to the development of an HR services app, which streamlined the HR process for clients.

## Education

BA (Hons) Business Management 2:1
London Metropolitan University

## Experience

### Freelance Web Developer |
Present

- Developed responsive websites using JavaScript, React, HTML, and CSS for multiple clients, focusing on improving user experience and accessibility.
- Designed and implemented features to optimize website performance, improving load times by up to 20%.
- Collaborated with clients to gather requirements, translating business needs into functional web solutions.
- Used Git for version control to track project changes and facilitate seamless teamwork.

### Web Developer | Shy Productions Ltd |
Jan 2022 - Dec 2022

- Built and maintained websites for the film production company, enhancing site performance by reducing load times by 25% using optimized JavaScript and CSS techniques.
- Developed scalable, reusable components with SASS and JavaScript, creating responsive web pages that provided a seamless experience across devices.
- Worked closely with a small team to gather and implement technical requirements, ensuring the success of each project's digital presence.

### Junior Software Developer | _Nology (Remote) |
May - Aug 2020

- Collaborated with a team of 10 developers to build a React-based HR services web application using agile methodologies.
- Delivered project tickets in weekly sprints and practiced pair programming to ensure high-quality code.
- Utilized Jest and Enzyme for test-driven development, ensuring robust and reliable features.
- Integrated Firebase to manage the application's real-time data storage and authentication.

### Operations Coordinator | SHY Productions Ltd: Gurkha: Beneath the Bravery |
Mar 2019 - Dec 2021

- Led business operations for the production, including raising £23,000 in funding through partnerships with businesses and charities.
- Designed and implemented inventory tracking systems that reduced operational delays by 15%, supporting the timely delivery of production goals.
- Coordinated project schedules, ensuring on-time delivery of key production milestones for cast and crew.
